

CULVERT POLICY

Silver Brook Township will furnish one (1) culvert to township residents at no cost.

The Board must inspect and approve the proposed location for said culvert. All culvert locations must meet Carlton County standards. All non-conforming locations must be reviewed and approved by the Board.

The Board will determine the length and diameter of said culvert.

Additional culverts may be purchased by residents through the township at the resident's sole expense.

A \$100 deposit is required to be on file with the Town Clerk before the purchase of any culvert. The deposit will be refunded upon proper installation by the resident and final inspection by the Board.
